

Adjustable Auxiliary Motor Brackets & Brass Ship Bells

Aluminium Bracket (1360-00)

This outboard motor bracket is adjustable to three separate positions to suit the boat owner's requirements. The variance from rise to fair is 380mm (15"). Suitable for standard motors up to 15 hp, this bracket is made of marine-grade aluminium, with stainless steel fastenings. The mounting block is made from a high-grade mahogany.

MI 1372 O/BRACKET FIXED S/S PLATFORM

Bells

Cast bell brass, with a highly polished finish. These bells are a must for any vessel to have that 'ship-shape' look. Four sizes are available:

MI 1604 100mm (4")

MI 1608 200mm (8")

MI 1610 255mm (10")
